Colcord Public Schools Child Find and Identification Processes

The Colcord Public School District has an ongoing CHILD FIND system. The purpose of the Child Find System is to find any child or youth that may have a disability that requires special education services, in order to provide them with an appropriate public education. The school district is looking for those children and youth, ages 3-21, who are not currently receiving special education and related services.

Colcord Public Schools will make sure any child or youth who has a disability that requires special education and related services, is provided an appropriate public education. This education will be at no cost to the parents of the child or youth.

Children and youth with disabilities means (as defined by the *Oklahoma State Policies and Procedures for Special Education in Oklahoma*) those who have hearing impairments, vision impairments, an emotional disturbance, deafness, blindness (or both), specific learning disabilities, intellectual disabilities, multiple disabilities, speech and/or language impairments, physical disabilities, autism, or traumatic brain injuries. In addition, children and youth with any disability which substantially limits a major life activity may receive modifications and accommodations to allow them access to an appropriate education (Section 504 of the Rehabilitation Act, as amended).

Colcord Public Schools does not discriminate on the basis of race, color, religion, national origin, sex, age, disability, or veteran status.

Parents, relatives, private agency employees, and concerned citizens are urged to help the Colcord School District find any child who may have a disability and need special education and related services.

Colcord Public Schools Child Find and identification processes follow all OSDE policies and procedures which can be found at oksde.gov.
